The Gemini

IVF Hospital Information Management System

Who We Are?

Headquartered in Ahmedabad, India, The Gemini is a leading Global Enterprise Software Provider with a reputation for Innovative Products and Outstanding Services. The company provides enterprise software solutions to multiple verticals, including Healthcare, Education, Corporate Houses, Public sector and more.

Our experienced staff of professionals has worked with a wide array of platforms, languages, and tools in the course of our various projects. The Gemini Solutions, a leading Healthcare and Education software products provider, distributes and supports worldwide. The Gemini operations and distribution & support network for software products and solutions are spread across India & Asia, UK and US.

The Gemini IVF HIMS

Building on 20 years of EHR development, The Gemini IVF HIMS has simple and intuitive design. From resource-based appointments to cycle management to Cryo preservation and in-house labs, The Gemini IVF HIMS does it all. The Gemini IVF HIMS is flexible and easy to customize to your unique style of practice, and our excellent live support is available by phone and chat. We continuously develop convenient and effective tools to simplify the process of clinical documentation, increase staff productivity, and provide real-time delivery of patient information throughout all areas of the clinic. The Gemini IVF HIMS empowers practices to maintain an optimal workflow, offers the ability to automate operations, and ultimately increases revenue while meeting patient demands and delivering the best possible care.

FEATURES:

Support

We are always here to help and will ensure that any query that you may have is answered lightening quick.

Time saving

Time saved is time gained. Our tried and tested workflow insures that you can get work done in a jiffy.

Pricing

Our various pricing models give you a chance to choose the model that suits your needs. Our well-thought out pricing also ensures that you get the most out of the money you pay.
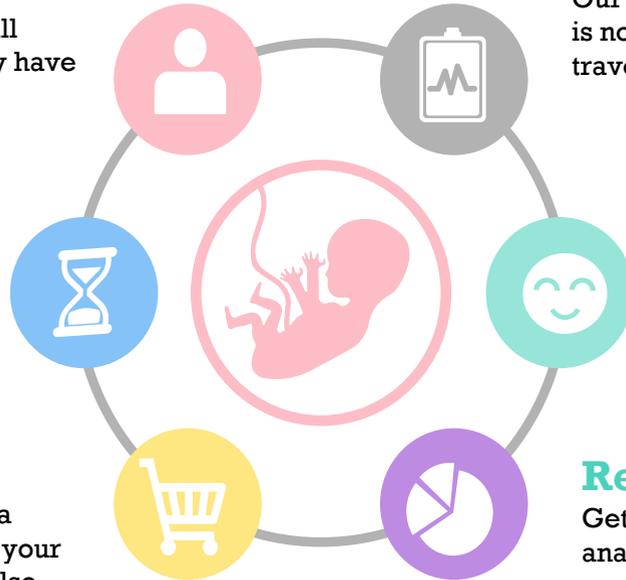

Module Oriented

Our various modules ensure that there is no time wasted on irrelevant traversing.

User Friendly

Our designers have paid great attention to detail which makes the software a delight to work on.

Reports and Analytics

Get detailed reports for in-depth analytics. Our clear cut reporting will ensure that you get a comprehensive view of your practice.

BENEFITS

Customize Your Software

Your clinic is unique. Although all IVF clinics share the same mission, no two clinics are the same. Routines and procedures differ, and big clinics differ from small ones. In order to provide a software that fulfills the unique needs of your clinic, we have created a highly flexible and customizable software.

Statistics and Reports

The statistics/report function helps you to extract any data for statistical analysis or set up a customized data report. Report templates are built and used to create grouped reports, ready to export to Excel.

Commit to Quality

The Gemini IVF HIMS helps you to identify areas for improving treatment results and prevent mistakes. With several supporting system components, you can monitor and administer clinic routines and identify areas for improving treatment results and help prevent mistakes.
